What others are saying

"What a joy it is to teach my children the truth"

(Betsy Boyce, home school mother)

"This looks great! This is what we have been praying for these grades."

(Christine Field, home school author & lecturer)

Get diploma & BS/BA same day – Save \$100,000

Free mentoring for all enrolled students helps save \$100,000+ off college tuition. Avoid the college campus. Dual-graduation for a 4-year head start on life.

Dual-Credit, Practical Worldview

There's also a dual-credit option with the college of New Geneva Leadership Academy in Appomattox, Virginia. This lays a correct world view foundation for the student's general education requirements, integrated into their career path.

King's Way integrates the learning into every subject using "the lost tools of learning:" Latin, logic, rhetoric, apologetics, debate, and Great Books. Elective offerings allow non-college bound students to graduate from high school with a minor in trade/subjects like carpentry, plumbing, criminal justice, graphic arts, marketing, etc.

A Classical Education At Your Fingertips

Most families choose our \$1,791 Annual Tuition program with live teachers. This is half the average tuition at other Christian online schools. Our goal is to remain competitive with the so-called "free" government schools.

King's Way offers these additional educational benefits:

- On-line discussion format in upper grades.
- Affordable alternative to humanistic government school system, that is destroying your children's faith.
- Take just one course or an entire grade level.
- Critical thinking and communication skills in "live-fire" settings.
- Prepares student for life and leadership, not just making a living
- Senior community practicum & seminar helps student integrate classical reading program.
- Low-cost courses allow you to try the program without financial risk.
- The "Great Man" approach to historical studies: Representative figures and their "schools of thought" are studied in history, economics, art, music, etc.
- Biblical studies alternating with and complementing classical studies.

Curriculum
